Sapientia Aedificavit Sibi Domvm

The origins of the University of Valladolid (UVa) date back to the thirteenth century. Since then, this academic institution has grown and has adapted to changing times to become one of the leading universities in Spain.

The university is spread over four campuses: Palencia, Segovia, Soria and Valladolid, located in the region of Castilla y León. It offers a range of Bachelor's Degrees, official Master's Degrees, and Doctoral Degrees, with programmes in Physical Sciences, Humanities, Engineering and Architecture, Health Sciences, Social Sciences and Law.

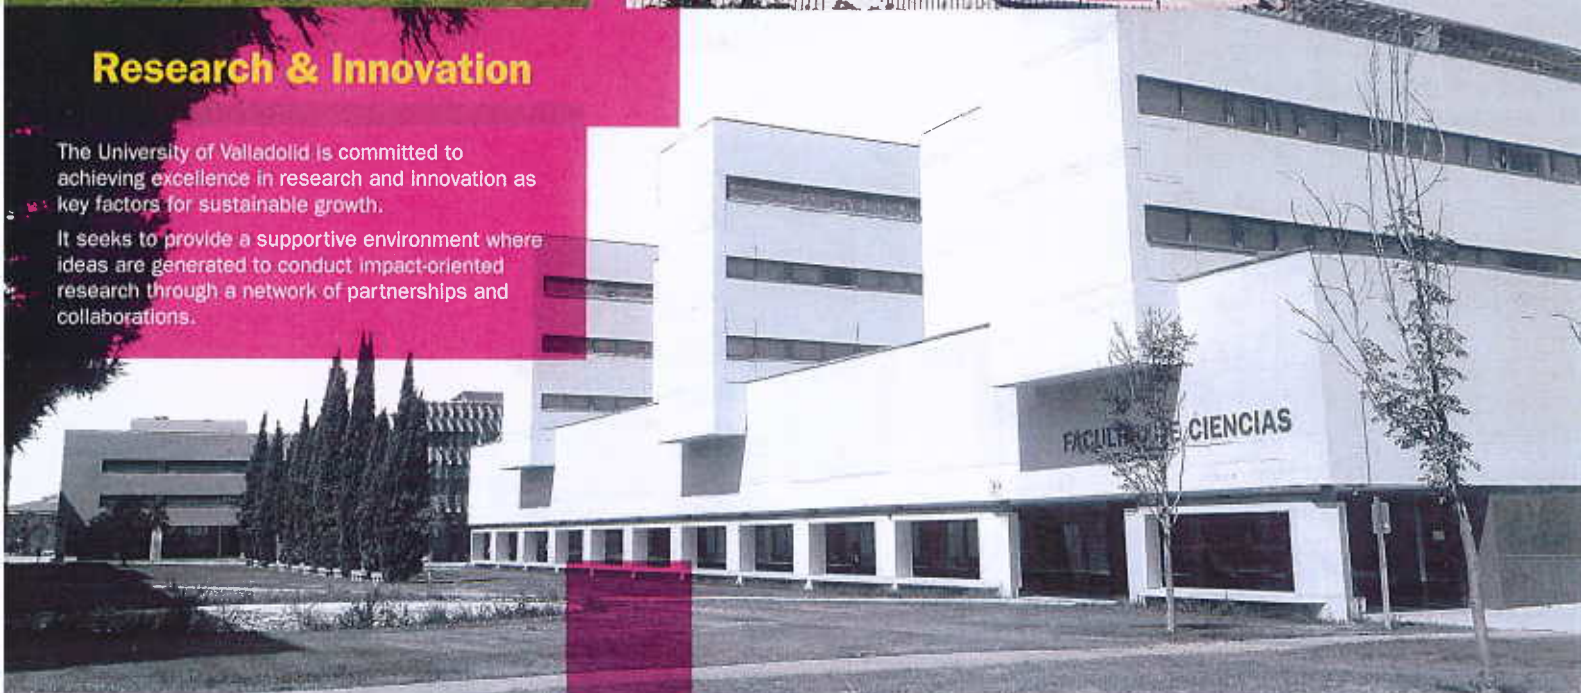

Its commitment to ongoing education, its extensive network of international relationships, its prestigious research centres, its enormous cultural and sporting potential together with its commitment to society and the environment form an exceptional academic setting that is comparable to the oldest and most prestigious universities in Europe.

Research & Innovation

The University of Valladolid is committed to achieving excellence in research and innovation as key factors for sustainable growth.

It seeks to provide a supportive environment where ideas are generated to conduct impact-oriented research through a network of partnerships and collaborations.

Study in Spain

Thousand of students from all over the world study in Spain... Why?

Because Spain is an attractive destination for Spanish speaking students.

Because the cost of living in Spain is rather cheap compared to other countries.

Because Spain is one of the countries with a high quality of life: Mediterranean gastronomy, traditions and security are deeply embedded in the culture of the country.

Because it offers many opportunities to learn and speak Spanish, the second most widely spoken language in the world.
